

ProQuo Services Canada Ltd. has developed a hand tool that can pull invasive trees, shrubs, vines and weeds with little effort. It's called the Pullerbear Pulls-All. Made of high quality steel and weighing just 13.5lbs the Pulls-All can make short work of even the deepest rooted plants up to 2.25 inches in diameter. The plants will be completely extracted, roots and all, with little effort. The Pulls-All is an ideal alternative to brush saws, chainsaws, chemicals, and most of all, digging and hand pulling.

We are offering the Pullerbear Pulls-All for just \$139.99 Canadian or, with today's (Nov. 12 08) exchange rate of 0.8104%, \$115.06 U.S. for our American customers. That's \$113.45 U.S. delivered for free anywhere in the United States and Canada. Payment can be made via a secure website with any major credit card.

This tool is revolutionary in design and price and is available, for this price, online at www.pullerbear.com.

If you have any questions regarding the Pullerbear Pulls-All or our company you can reply to this email or call us at 1 877 943 3607.

You can see pictures of the Pulls-All at pullerbear.com and see video on the Video page of the site.

Thank you for your time and we look forward to hearing from you,

Sincerely,

Randy Paisley, Owner
